

KNIGHT LEVEL THREE

Use the information in the packet to create a cartoon or story about a knight looking for his lost pieces of armor. You must include the following terms listed below, in correct context. (Example – you can not say “I found the visor,” you must use the term visor in context. Example – “I attached the visor to the helmet”). You cannot use multiple key vocabulary in one sentence – only one word. Because this is a story, you must have action and adventure as your knight is obtaining the lost pieces. All terms must be **IN RED** or **UNDERLINED IN RED**. Your story will not be graded unless you follow the directions. If you are typing a story, 12 point font **MUST** be used, **DOUBLE SPACED ONLY**, and your full name and classperiod is **UNDER** your **CREATIVE TITLE**. The story must be a minimum of 4 typed pages. If you are writing your story by hand, it must be in **BLUE** or **BLACK** ink, one side of the paper only, and nothing crossed out and a minimum of 8 pages.

If you are creating a cartoon, **NO STICK FIGURES**. Remember, you have to use all of the terms per directions above which includes a story line. You may not dress the knight in a single frame of your cartoon. (only one key word per frame) Cartoons may be created on the computer or construction paper.
